The amendment received 9 May 2005 has been made of record. Claims 1-12 are pending.

The finality of the previous office action is withdrawn.

The indicated allowability of claims 1-8 contained in the previous office action is withdrawn upon further consideration.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2 depends from claim 1 and recites a connector base that may consist of a polyisocyanate. Claim 1, however, requires the connector base to comprise a resin. The examiner is unable to find in the specification a polyisocyanate that is also a resin. Therefore, it is unclear what applicants intend the connector base to be.

Claim 4 depends on claim 1 and recites 0-20 wt.% of a compatible resin. This language implies that the connector base may be resin free, contradicting the requirement of claim 1 of a resin in the connector base.

These two issues make it unclear as to what applicants intend the components of claims 1-12 to be.
